Subject: Benzovindiflupyr administrative record index for your review & certification (consolidated ESA litigation)
Attachments: Admin Index Benzo 15-1389.pdf; benzo index certification.DOCX

Hello Mike,

I am attaching for your review and certification the administrative record index for benzovindiflupyr and the associated pesticide products. This is the second of the five record indices to be filed in the consolidated ESA case, and it is due to the court this Friday, August 10. Hope Johnson is the PM for this case and was tremendously helpful in compiling this index. Please take a look at the attached index and if you have no concerns, please sign the certification statement in the attached Word document. If possible, please email the signed certification back to me as a PDF attachment, ideally by close of business on Thursday 8/9.

Thanks much,

Elizabeth Thaler
